

Another Town

Regina Spektor

In another town
Don't let me forget
In another town
Mouth full of regrets
In another town
Please place final bets
In another town
But I know I know I know
In another town
My fingers so cold
In another town
My soul feels so old
In another town
I've sold all my gold
In another town
But I know I know I know
I love you...
In another town
They've given me the key
In another town
I'm drinking for free
In another town
A girl just like me
In another town
But I know I know I know
In another town
The light fills my room
In another town
They're painting my moon
In another town
I won't see it soon
But I know I know I know
I love you...
