

## **Tomorrows**

**Rehab**

At first I felt shattered... lost... but everyday is better  
I have walked behind the sky  
We are all animals but there is a better way to live  
Sometimes, at night I hear a voice in my head  
Who is it? Is it you? Is it true that the beyond  
That everything beyond is here in this life?  
I can't hear you. Who's there?  
Is it only me? Is it myself?
