

DICTATOR

REI AMI

REI about to take over the world
Gogo Yubari with the shit deadly viper
Strike you out with another hit
You don't wanna play this game
My partners pull up fuck up all your shit
Then leave you crying like a bitch

I am not your queen, I'm your dictator
Bend the fucking knee, yeah bitch that was an order
Whatcha say to me? Huh? Bitch speak louder
You know I reign supreme, nah, you can't imitate her

Red dress latrodectus on his mattress I'ma kill it
Do it dirty, fuck him sleazy
Then you know I'm dipping
Block his number ghost him
Then I pop up on his playlist
Now he mad, oh he hurt?
Ain't it sad? That's too bad!
Didn't I tell you I'ma get my way?
I don't give a fuck what bitches gotta say
And I never fuck with their music anyway
Sing about the same shit same old thing
Why the fuck your manager lurking on my page?
Is it 'cause I'm popping off in and out of states?
Is it 'cause your numbers they still haven't changed?
I don't give a fuck, bitch I can't relate

I am not your queen, I'm your dictator
Bend the fucking knee, yeah bitch that was an order
Whatcha say to me? Huh? Bitch speak louder
You know I reign supreme, nah, you can't imitate her

Cold, why you gotta treat me so cold?
You say you love me but I don't know, don't know
You got me wishing I was dead
'Cause you're a meaniehead

Say you won't do it
I've been feeling stressed out, head is all ruined
Say you're gonna pill pop, not think through it
A part of me says I want you gone
Who have I become?
I don't mean no harm but you messed me up
Never said sorry for the damage done
For you it's fun, play with dummy guns
Is this what you want? (Yeah yeah)
You're so mean I'm scared to say I wanna leave
'Cause every time I try, I get a tighter leash
You never know
Everything I do when I'm feeling low
Always about you, that's the way it goes
The way it goes
Just the way it goes

Cold, why you gotta treat me so cold?
You say you love me but I don't know, don't know

You got me wishing I was dead
'Cause you're a meaniehead
Cold, everything you do is so cold
You say you love me but I don't know, don't know
You got me wishing I was dead
'Cause you're a meaniehead

(Are you fucking recording me?)
