

## do it right

REI AMI

I've been upset  
Filled with regret  
Over the same little messes  
I wouldn't call it depression  
Now you're seeing red  
Over something I said  
I didn't use my discretion  
Back when you had me confession

You were all I had to keep me safe  
Said I'd be just fine, everything everything would be alright  
Told me I was worth the time you gave  
Then you changed your mind, yea yea

Every conversation with myself's like  
Why couldn't you be somebody else  
Someone like someone like  
Someone that you wanna be I I  
And every situation that I'm in's like  
Why can't I just stop and start again  
I would do it right, do it right  
I would do it right this time I I

I'm in my head like every damn day  
I stick to myself it's just for my sake  
I try to make things better  
But I feel like I can't make things better  
I'm rolling up this J cause I don't do pipes  
It's a lonely day it's got me stuck tonight  
This ain't just a phase I feel it in my bones and all  
Got me feeling like I need alcohol  
Heart is feeling empty I can't fill it up  
When you overthink it then it gets you stuck  
Stress level got me t t tensing up  
AH AH AH AH AH AH AHHH

Look I  
Stay scheming, day dreaming

Sometimes you gotta act like there's no season  
I keep in feelings that I can't control  
And I got conversations with myself that I'm tryna hold  
Here it goes

Every conversation with myself's like  
Why couldn't you be somebody else  
Someone like, someone like  
Someone that you wanna be I I  
And every situation that I'm in's like  
Why can't I just stop and start again  
I would do it right, do it right  
I would do it right this time I I

Every conversation with myself's like  
Why couldn't you be somebody else  
Someone like, someone like  
Someone that you wanna be I I

And every situation that I'm in's like  
Why can't I just stop and start again  
I would do it right, do it right  
I would do it right this time I I
