

# RUNAWAY

REI AMI

Don't even bother  
Must be something in the water  
Making the ladies go rounding the boys they looking like sheep  
to the slaughter  
Confessing to father  
Daddy I took off the collar  
Now they don't know what to call her  
Now they don't know what to call her

Now I think I might've found my friends  
Funny 'cause they want us dead  
When the voices circle through my head  
You better run away, run away, yeah  
And baby if it hurts say when  
I'll stop and then I'll start again  
When the voices circle through my head  
You better run away, run away, yeah

Call me a bitch  
They're calling me reckless (reckless)  
Call me whatever you want  
It's not gonna make you forget that  
That you know we're better than  
Men 'cause we take 'em like medicine  
Break 'em like promises honest to God  
I'll make you forget that I-

Now I think I might've found my friends  
Funny 'cause they want us dead  
When the voices circle through my head  
You better run away, run away, yeah  
And baby if it hurts say when  
I'll stop and then I'll start again  
When the voices circle through my head  
You better run away, run away, yeah
