

Bicycle

Reignwolf

Hey hey baby what do you mean?
What I'm thinking is obscene

You say we could get it on
I'm out of school and I'm on the run

Are you coming out to play
Just what you told me yesterday?
That I should come around your place
I'm on my bicycle
I'll be there just after eight
Even though your parents hate
The sight, the sound of me, the smell

(Let's go!)

Wrote this song just to make you notice
Come outside, are you ready for this?

I know this is your first time
I'll be gentle, you be kind

Are you coming out to play
Just what you told me yesterday?
That I should come around your place
I'm on my bicycle
I'll be there just after eight
Even though your parents hate
The sight, the sound of me, the smell

(Let's go!)

Trembling fingers loosen the dials
Relax, I'll make you smile

First it's easy, then it's hard
I'm putting it down in your back yard

Are you coming out to play
Just what you told me yesterday?
That I should come around your place
I am on my bicycle
I'll be there just after eight
Even though your parents hate
The sight, the sound of me, the smell

Are you coming out to play
What you told me yesterday?
That I should come around your place
I am on my bicycle
I'll be there just after eight
Even though your parents hate
The sight, the sound of me, the smell

(Let's go! Let's go! Aww let's go! Let's go!)

Sure was fun, hope you feel the same

Tomorrow night let's do it again
