

Electric Love

Reignwolf

Come down the road
So easy we're soldiers
My love's on the edge
I'm pushing it over

You followed me home
You leave me so lonely
We can run from the dark
But you know you can't hide from my love

Come on back, electric love
Get on back, electric love
Come on back, electric love
Get on back and show your love

And I [?] tonight
And there's tears in your eyes again
Well I gave you my soul
I can't give you anything more, no

Come on back, electric love
Get on back, electric love
Come on back, electric love
Get on back and show your love

I've been out
My head so long
Bloody trail
Hearts unwound
Losing sleep
Sought my dreams
Betting love
Kerosene
