

# Lovesongs

Reiley

I go out  
With my friends  
But it's you in my head  
Your to hot  
To replace  
And too good to forget

Now you're gone, but everything I see  
Is your face in people on the street  
Can't move on when I got you and me  
Playing on repeat

'Cause all I hear is lovesongs, lovesongs, playing on the radio  
Our songs, you ruined all the good songs  
Sad songs, they all just sound like love songs  
Love songs, they all just sound like

It's not fair  
You're not here  
At the same time, you're everywhere  
Need a sec, catch a breath  
Tell myself that I can

Now you're gone, but everything I see  
Is your face on people on the street  
Can't move on when I got you and me  
Playing on repeat

'Cause all I hear is lovesongs, lovesongs, playing on the radio  
Our songs, you ruined all the good songs  
Sad songs, they all just sound like love songs  
Love songs, they all just sound like

Now I'm gone  
But let's not get to keep  
All these songs remind you of me  
Hope they're always playing on repeat  
Playing on repeat

'Cause all I hear is lovesongs, lovesongs, playing on the radio  
Our songs, you ruined all the good songs  
Sad songs, they all just sound like love songs  
Love songs, they all just sound like
