

Strange Love

Reiley

[?] silence if it's awkward and nobody is talking, oh
Sometimes I have way better conversations out here alone, oh

I'm checking out that body, that body, that body
Like someone I've never known
I'm dressing up this party, this party, this party
I'm out here dancing on my own

'Cause it's a kind of strange love staring down the bathroom mirror
I love this peculiar skin
The [?] took so long to figure out
The stranger I get, the stranger I love, it's never enough, this strange love

The stranger I get, the stranger I love, it's never enough, this strange love
The stranger I get, the stranger I love, it's never enough, this strange love

I'm not afraid to look into your eyes, does that make you nervous, ooh
I'm comfortable enough to be uncomfortable, I don't care, I don't care, I don't care

I'm checking out that body, that body, that body
Like someone I've never known
I'm dressing up this party, this party, this party
I'm out here dancing on my own

'Cause it's a kind of strange love staring down the bathroom mirror
I love this peculiar skin
The [?] took so long to figure out
The stranger I get, the stranger I love, it's never enough, this strange love

The stranger I get, the stranger I love, it's never enough, this strange love
The stranger I get, the stranger I love, it's never enough, this strange love
The stranger I get, the stranger I love, it's never enough, this strange love
The stranger I get, the stranger I love, it's never enough, this...
