

When will we know why the star shine,
When will the time come for us to be free?

The moonlight grows stronger
I wait for the day, My journey continues but I won't stay
We have to go we'll fight 'til the end and evil will no longer
rule
I couldn't see it but now it's too late
I know where I'm going and that is my fate
The evil of the temple will no longer make a stand

Is this for real or is it just a dream
Tired of illusions, I do still believe

When will we know why the star shine
When will the time come for us to be free?
When will we know where to go from here?
Reach out for the Northern Sky

So far away but soon I'll be there
I hear how they scream "Save Us!"
You can believe salvation's calling when you are so close to the
end

When will we know why the star shine
When will the time come for us to be free?
When will we know where to go from here?
Reach out for the Northern Sky
