

## Body Be

Relient K

My eyes can't help my ears, my ears can't see  
Why do I try this way? There's probably something wrong with me  
If I can't see, then something's wrong when all my pieces become  
pieces and I are one (All right!)

Then where, where would my body be, body be?  
Where, where would my body be, body be?

My hands can't help my eyes, my eyes can't feel  
Why do I try this way? There's probably something wrong with me  
If I can't see, then something's wrong when all my pieces become  
pieces and I are one (All right!)

Then where, where would my body be, body be?  
Where, where would my body be, body be?

Where, where would my body be, body be?  
Where, where would my body be, body be?  
Where, where would my body be, body be?  
Where, where would my body be, body be?
