

Here I Go

Relient K

Yeah!

Oh, believe me I have tried
to work this out from the inside
then I finally realized I need to move on with my life

Gotta make something happen
not just sit around and wait for it
this place is like a prison I think I'm going to have to make a
break for it
whoa-o here I go it's like I made it for the first time
whoa-o here I go and I think it's the first time I felt alive

Yeah! Alive!

I've been so depressed I've been let down
been pushed aside been pushed around
there's one thing that I need
something you can't take from me

Gotta make something happen
not just sit around and wait for it
this place is like a prison I think I'm going to have to make a
break for it
whoa-o here I go it's like I made it for the first time
whoa-o here I go and I think it's the first time I felt alive
whoa-o here I go it's like I made it for the first time
whoa-o here I go and I think it's the first time I felt alive

Move up, move on
you blink I'm gone
we only have one life to live
I'll live it now
you have no doubt
I'll prove you wrong
this is the only thing that I know
so here I go

whoa-o here I go it's like I made it for the first time
whoa-o here I go and I think it's the first time I felt alive
whoa-o here I go it's like I made it for the first time
whoa-o here I go I think it's the first time I felt alive.
