

# When You Were My Baby

Relient K

I still remember what happened  
Yeah, I know right where I was  
The sky was looking overcast  
On the outskirts of love

That's when you said keep on driving  
Although the sun's gonna set  
You said you had to see how far we could take this  
Yeah, how far we could get

When you were my baby  
Whoa-oh  
Must've done something to change me  
Whoa-oh  
Cause nothing ever seemed to phase me  
Till tonight  
Thinking when you were my baby and the whole wide world was mine

I woke up this morning  
Aching for you  
Roll over, try to sleep it off  
Till late afternoon  
They say that it's better  
If you love and lost  
Maybe if I stay away from you  
I'd be better off now

When you were my baby  
Whoa-oh  
Must've done something to change me  
Whoa-oh  
Cause nothing ever seemed to phase me  
Till tonight  
Thinking when you were my baby and the whole wide world was

Spinning around us  
Trouble never found us  
Wish I had it now  
But the whole wide world  
It never beams bright and  
Never feels as right and  
It's killing me tonight just thinking

When you were my baby  
Whoa-oh  
Must've done something to change me  
Whoa-oh  
Cause nothing ever seemed to phase me  
Till tonight  
Thinking when you were my baby the world

When you were my baby  
Whoa-oh  
Must've done something to change me  
Whoa-oh  
It never seemed to phase me  
Till tonight

Thinking when you were my baby and the whole wide world was
