Make nobody come against what me I believe in  
If you come against my vision you know that its treason  
It's been a long time I had this feeling I was chosen  
Situations that I came across made my heart frozen  
Momma told me she was worried when I was in her belly  
She said she had my brother and my sister okey-dokey  
Then it took her four years before she even took in  
Came a detox of blood that was a sign she was ready  
She said I never kicked she said I never turned  
She said I never caused her any discomfort  
And she no dey at ease for like nine months  
E be like say this pikin no wan gree comot  
Say me I dey at peace I no even apply no force  
And then she had a thought that maybe there might be a cause  
Ou yeah she started worrying worrying about a lot  
She went to the hospital without no remorse  
And then she met a doctor (Doctor)  
Tell me what is happening to my son (My son)  
Am I being attacked by a rival (By a rival)  
It's not making sense what do I do (Then what she say)  
She said doctor I'm not feeling fine  
Tell me this could be a sign  
And he said it is time she gave birth and named me Divine

Nothing fit come against my destiny  
I fight battles wey nobody ever see  
As I dey this industry with God company  
Me I go kaku so make everybody see  
Script wey God mark you wan cancel it  
English no correct make nobody bother me  
You can laugh at me talk down on me God cover me  
Ye ye ye ye ye ye ye ye ye  
My mama dey steady cast and binding  
I give her joy every single time o  
Na me dey make her dance like cocaina  
As I dey grind every single time na she dey my mind  
She dey send me prayers wey dey keep me tight  
I pity anybody wey follow me fight (Follow me fight)  
Ou yes I felt pain when I lost my Father  
Ou yes I felt pain when I lost my brother  
Ou yes I felt weight stacking on my shoulder  
Omo it kept growing as I got older  
The voice in my head told me i'm a soldier  
Then I remember the time mama named me Divine
