

Government y'all tell me what y'all governise  
The people never organise  
Even when I try to socialise  
The people make me lose my mind  
My people suffer  
Political poker  
I put the burden of the masses on my shoulder  
Nobody badder tell me who that motherfucker  
But the remedy I know  
Girl dance to the beat and show  
This one na bad man flow  
Wine to the rhythm and slow  
E dey make all the bad girl know

She dey move like a Tornado
