

Hey, my name is Remble (Oh)
I made a hundred bands today, then made it triple (Oh)
I'd say I'm it, but I've been that from the beginning (Oh)
A Stephen Curry, I put that inside a semi (Yeah)
Houston Rockets, I was stepping out with Whitney
A Pooh butt, I think you resemble Winnie (Winnie the pooh)
He's gonna raise his voice at me then I'm a chicken
I used to think that everyone was out to get me
You just said you had a squabble, show it to me (Can I see it?)
I haven't had a squabble since I bought a pistol
I'm not your bitch, but I can tell you argue with her (I can tell)
You should see what she does when you aren't with her (Tuh)

Make a decision, it's Roku or Fire stick
You spent a band on the gun you are dying with
You want a million, then change your environment
We all want pussy but why were you buying it?
Make a decision, it's Roku or Fire stick
You spent a band on the gun you are dying with
You want a million, then change your environment
We all want pussy but why were you buying it?

Sniffing powder, why are you trying it?
You sniffed a mountain, how haven't you died yet?
I seen his face, he thought about trying me
I shoot the pistol because it's inspiring (Yeah)
Face it buddy I am what you're tryna be
Burners bustin' will boost the economy (It will do that)
You have to know that it is what it got to be
Can't even lie, it's the cripplin' inside of me

Make a decision, it's Roku or Fire stick
You spent a band on the gun you are dying with
You want a million, then change your environment
We all want pussy but why were you buying it?
Make a decision, it's Roku or Fire stick
You spent a band on the gun you are dying with
You want a million, then change your environment
We all want pussy but why were you buying it?

If I didn't pass on a mission, I tried again
Imagine dropouts and gangsters jumping out Honda civics
I was nineteen walking around with the biggest blick
You were stalling, and I was actually bouncing out, tryna get 'em
In the county I was actually squabbling tryna hit
I remember forgetting how to throw hands when I bought the stick
Quit the talking, put the money in the bag and then call a Lyft
Remember that your next move could be the reason that you exist
It's Remble

Make a decision, it's Roku or Fire stick
You spent a band on the gun you are dying with
You want a million, then change your environment
We all want pussy but why were you buying it?
Make a decision, it's Roku or Fire stick
You spent a band on the gun you are dying with
You want a million, then change your environment

We all want pussy but why were you buying it?
