

# Where's Remble?

Remble

(NoLimitAustin)

Honey make the wood burn slow, you know?  
We're having escargot, you know?  
I'm not afraid to spark pole, you know?  
Touchable just went gold, you know?  
Those Percocets are gonna wear off, you know?  
They only get along because they share opps, you know?  
We like stealin' off on marks, you know?  
I miss catchin' fades at Simms Park, you know?

Do I have to raise my voice for you to hear me?  
If I didn't extend my hand, could you feel me?  
Another innocent man just plead guilty  
You can believe it or not, who am I, Ripley's? (It's Remble)  
Carried the smoke, mane, like a chimney  
Dolce and gold chains like Nipsey  
Codependent and rope chain, are you kidding me?  
Had me thinkin' like 'Was he faded off the Hennessy? '  
I've got the bag all my life  
Nickels act tough, but they be droppin' dimes, like  
Before brodie blast, he spark a wood and get his mind right  
Wish C3 could hit fire camp and get his time sliced  
New born, I really miss you, brodie, stay strong  
My pops been in the hole so he can't call  
You on the court, but you never played ball  
Heard my grimies hit every dorm and really break jaws

Honey make the wood burn slow, you know?  
We're having escargot, you know?  
I'm not afraid to spark pole, you know?  
Touchable just went gold, you know?

When you think people solid, they fold  
I don't wanna hear any excuses, you told  
We caught Cuddie with his pants down, he froze  
Make a three look at the stands now, D Rose (Swish)  
Aye, Crodie you see that car comin'?  
Remember when we would hit Peck and get the park jumpin'?  
Spot suckers then bounce out and leave the car runnin'  
Before we started commercial licks I would car pass  
When Crash hopped out, I did a 40 yard dash  
A sunny day on Second, damn near had a hot flash  
Got chopper, but I just really need a compact  
I don't want an extendo, where's the stock at?

It's just me and you, there's no room for back-up  
Heavy in the field, make sure your boots are strapped up  
Fell behind, there's nothin' to do but catch up  
Maybe change your mindset and get a new perspective, but...

Honey make the wood burn slow, you know?  
We're having escargot, you know?

I'm not afraid to spark pole, you know?  
Touchable just went gold, you know?  
Those Percocets are gonna wear off, you know?  
They only get along because they share opps, you know?  
We like stealin' off on marks, you know?
