

Break

Remedy Drive

you call me out I don't hear a sound
you call me up but I'm on the ground
and I don't want to be left outside
when you come to take your bride
you said you'd come to take your bride

you said you'd break the dawn
can you hear my song - how long
you said you'd break the day
can you hear me say - how long

under seven thunders one man fails
under seven layers of skin and scales
if i could touch the hem then i'd be made new
when the grass is wet with dew
i think the grass is wet with dew

i don't want to banished
left outside
expelled repelled ignored denied - outside castle walls stand s
o tall
i've heard a call but i'm on the fallen side outside
