

## Come Up

Remedy Drive

Fallen short  
falling into line  
you're falling apart again  
missed the mark  
missing out this time  
you're missing the point again

come up come up I'll show you worlds to come  
come up come up  
we can outlive the sun

such a fall  
it's hard to find out why  
you're living but not alive  
not alive  
barely getting by  
so barely you're hanging on

come up come up I'll show you worlds to come  
come up come up  
we can outlive the sun

come up right now  
the sun shines now
