

Glory

Remedy Drive

No height, no depth could ever contain
No life, no death could stand in the way
It's a rushing wind, it's a rising tide
It's the flood within that I cannot hide
One sound, one voice, one word that can drown out
All the noise

Glory
With every breath I breathe I'm singing
Glory
With everything in me I'm bringing
Glory
Glory

Hear how the drum beat echoes the call
The darkness runs at the sound of it all
So I sing it out at the top of my lungs
It's an ancient song but it's just begun

Glory
With every breath I breathe I'm singing
Glory
With everything in me I'm bringing
Glory
Glory

Let it be the only song I sing
Glory
Let it be an anthem for the King
Glory
x2

Glory
With every breath I breathe I'm singing
Glory
With everything in me I'm bringing
Glory
Glory
Glory
