

## Here's For The Years

Remedy Drive

here's for the years the worms have eaten  
grace for the youth that's almost gone  
i was awake when you were sleeping  
when you are weak i still am strong

don't despair child- you'd think i can hold you up when you fall  
if i can hold up the stars i can answer your call

why so anxious? you'd think i can light up the path for your feet  
if i can turn on the sun - let it shine in your street  
when i rise up, when i'm carefully painting the dawn it's for you  
rise and shine love, give glory where glory is due
