

Verse 1

We won't stand by
We are steadfast, you see
We got open eyes
As wide as catastrophe
When waters divide
Under the light of Polaris
On dry ground, tonight
Can you hear the sound of the Exodus?

Chorus

Run wild, against the tide
Chariots of fire on the hillside
Breathe free, it's who you are
Guided by the fires on the North Star
Stay strong, be brave
Ripples turn to tidal waves
Don't you know?

Verse 2

You use your pen, when you don't have a sword
You've got your fingertips on the keyboard
And you've got the sphere of your influence
Nobody else has got your fingerprints
As the streams pushed
Over the bends
It's the light that's bleeding out through your camera lens
You've got your voice
So sing it out, my friend
The songs of freedom at one hundred ten

Chorus

Run wild, against the tide
Chariots of fire on the hillside
Breathe free, it's who you are
Guided by the fires on the North Star
Stay strong, be brave
Ripples turn to tidal waves
Don't you know?

Pre-Chorus

Look up to the hills again
From whence comes my help?
Fire is burning, it's not burning out
A choir of seraphim
Is turning out, turning out
A fire is burning, it's not burning out
(burning out)

Hey!

Musical Interlude

Chorus

Run wild, against the tide
Chariots of fire on the hillside
Breathe free, it's who you are

Guided by the fires on the North Star
Stay strong, be brave
Ripples turn to tidal waves
Don't you know?

Hey, come on!
