

Ice Cream Heart

Remember Sports

Let's face it
I've taken the fun out of everything
Now it's a long night
Let's shake it
Back down to the basement, turn out the light
And hold on tight

Don't tell me
To get over these things so easily
I've got an ice cream heart
I'm melting
No shade and I've been out here way too long
Trying to hold on

No happy ending
I still need you to tell me I was right
I tried the key again this morning
And I couldn't get inside
