Remember Sports

I found your sign in the sky last night
I'm a song that you keep in the back of your mind
With all of the things you compartmentalized
You're not mad at me you just can't look in my eyes
And I'll ring three times before saying I tried
It's your birthday and I still can't get it right
And I know everything's gonna be alright
It'll all be fine we just all wanna die

Four years we spent jumping over these waves
We were so scared of change how it ran through our veins
Now I'm diving under and reaching for you
But it's somebody new and I don't know what to do
And I always thought that I'd be changed when I got to the
Surface again and that we'd be friends
I'll stay underwater till I work it out
Or my lungs give out
Or my lungs give out

It was so loud
When I loved you too badly to notice
That there was no giving or taking with our
Hearts slowly breaking
And it turns out
There was no way around it
That I couldn't stop you from going
That you couldn't stop me from going

Where else can we go
From this mess that we made out of our situation
