

Kangaroo

Remi Wolf

Dumb snow bunny
Will you hold me in your hands?
You sound funny
Talking my big ideas

Fast forest fires
Are spreading to ya
Call it an itch been waiting for this
I'm good at plaguing you with my big ideas
My big ideas
I'm talking my big ideas

Oh please stay
Call me hunny
We can go upstate
Make some money
I will run away when you call
This Cabernet will save us all

Oh please stay
Call me hunny
We can go upstate
Make some money
I will run away when you call
This Cabernet will save us all

Lil baby love
Will you be my kangaroo?
We can lay around
Exploring the big ideas

Stare at the sun
It's nature's hypnosis
Call it an itch i'm waiting for this
I'm good at plaguing you with my big ideas
My big ideas
I'm talking my big ideas

Oh please stay
Call me hunny
We can go upstate
Make some money
I will run away when you call
This Cabernet will save us all

Oh please stay
Call me hunny
We can go upstate
Make some money
I will run away when you call
This Cabernet will save us all

1,2,3 oh baby let's do it again, again, again, again
1,2,3 oh baby let's do it again, again, again, again

Oh
Oh

Oh

Oh please stay
Call me hunny
We can go upstate
Make some money
I will run away when you call
This Cabernet will save us all

Oh please stay
Call me hunny
We can go upstate
Make some money
I will run away when you call
This Cabernet will save us all
