

# Black Bikini

REMMI

We're so carefully constructed  
That there's nuclear combustion  
Pressing on my subconscious  
It's freaking me out  
All these habits we manage  
Make this relationship manic  
Maybe that's an advantage  
Until we're bottoming out

It's all good, it's all good  
Water blue as Santorini  
It's all good, it's all good  
I'm buried in a black bikini  
It's all good, it's all good  
I float so high, no one can see me  
It's all good, it's all good

So if it works, then it works  
Don't fix it nah  
Don't make it hurt any worse  
Tryna fix it no  
Oh, if it works, then it works  
Don't fix it nah  
Don't make it hurt any worse  
Tryna fix it no

It's all good, it's all good...

I drank a fifth of tequila  
Just to prove I don't need ya  
Threw it up on my sneakers  
I don't drink anymore  
Now I keep that shit tighter  
Stay up working all nighters  
Maybe I'll be too tired  
To even think anymore

It's all good, it's all good  
Water blue as Santorini  
It's all good, it's all good  
I'm buried in a black bikini  
It's all good, it's all good  
I float so high no one can see me  
It's all good, it's all good

So if it works, then it works  
Don't fix it nah  
Don't make it hurt any worse  
Tryna fix it no  
Oh, if it works, then it works  
Don't fix it nah  
Don't make it hurt any worse  
Tryna fix it no
