

Good With It

REMMI

Yeah, I left my cigarettes on the sunshine
Every good thing is coming my way, God
The grass is every kinda green I can see with my eyes
And I choose to manifest these things
In my day to day, today

I make my body feel good all the time, woo
And I'm running on a couple glasses of red wine, yeah
I'm making the world my very own paradise
When it's wrong I make it right
When it rains I throw a part outside

Life is an ocean and I'm swimming in it
In the emotion of it, I can't get rid of it
So I'm floating in it, I'm soaking in it
Until I good with it, until I'm good with it
Ah, life is an ocean and I'm swimming in it
In the emotion of it, I can't get rid of it
So I'm floating in it, I'm soaking in it
Until I good with it, until I'm good with it

I'm going to have to bring the fire back
Nothing's ever felt this hard
And I'll never do it again but here we are
And once you get it, you get it, you get it, it's yours
And nobody can take that shit away

You dip, you dodge, you dip, you dodge, you sway, mmh
And the spinning cycle messes with your brain
Now if you let it carry you away, just hold your breath
You're gonna be okay

'Cause life is an ocean and I'm swimming in it
In the emotion of it, I can't get rid of it
So I'm floating in it, I'm soaking in it
Until I good with it, until I'm good with it
Life is an ocean and I'm swimming in it
In the emotion of it, I can't get rid of it
So I'm floating in it, I'm soaking in it
Until I good with it, until I'm good with it

I learn my secrets on the sunshine
And every good thing is coming my way
The grass is every kinda green, I can see it with my eyes
Not choose to manifest these things in my day to day

Life is an ocean and I'm swimming in it
In the emotion of it, I can't get rid of it
So I'm floating in it, I'm soaking in it
Until I good with it, until I'm good with it
Life is an ocean and I'm swimming in it
In the emotion of it, I can't get rid of it
So I'm floating in it, I'm soaking in it
Until I good with it, until I'm good with it
