

# It's The End Of The World As We Know It

REMMI

In the eye of a hurricane, listen to yourself churn  
In the eye of a hurricane, listen to yourself churn  
The world serves its own needs, does your heart bleed  
In the eye of a hurricane, listen to yourself churn

It's the end of the world as we know it  
It's the end of the world as we know it  
It's the end of the world as we know it and I feel fine  
And I feel fine
