

Loop (Life On Other Planets)

REMMI

Pass the lighter, lighter
Give me that fire, fire
Pass the lighter, lighter
Give me that fire, fire

Being alive is some bullshit
You think by now we'd be used to this
If you're Christian or Jewish, Muslim or Buddhist
Don't matter cuz being alive is some bullshit

So I make jokes and I smoke weed
I have fun to make some meaning out of it
Make some meaning out of it
I'm not dumb and I'm not deep
I'm just trying to make some meaning out of it
Make some meaning out of it

Pass the lighter, lighter
Give me that fire, fire
Pass the lighter, lighter
Give me that fire, fire

I bet there's life on other planets
And they're gonna leave us here stranded
I'm not gonna freak
I'm not gonna panic
I'll just get stoned and laugh at it

I make jokes and I smoke weed
I have fun to make some meaning out of it
Make some meaning out of it
I'm not dumb and I'm not deep
I'm just trying to make some meaning out of it
Make some meaning out of it

Pass the lighter, lighter
Give me that fire, fire
Pass the lighter, lighter
Give me that fire, fire
