

## Nuumb

REMMI

These sheets are cold and I'm to numb to feel it anymore  
I should be wishing you would make me warm  
But I keep wishing you were gone  
So I could take up all the space I want  
These bones are cold I'm barley feeling human anymore  
Look in the mirror and I see a corpse  
Of a women who I think I knew before

So you can take off I ain't mad about it  
You can take off if you want  
You can take off I ain't mad about it (I ain't mad about it)  
You can take off I ain't mad about it  
You can take off if you want  
You can take off I ain't mad  
I'm just numb

We touched and warm spark made the greatest fire rage  
Then it burned out and the wires frayed  
Now we can't make the connection and it cost too much to fix it  
I made my money baby and you drink your drink  
We turn on the TV  
Yeah we're in the same space but there ain't no gravity

So you can take off I ain't mad about it  
You can take off if you want  
You can take off I ain't mad about it (I ain't mad about it)  
You can take off I ain't mad about it  
You can take off if you want  
You can take off I ain't mad  
I'm just numb

We broke out of it  
Just to watch it break down  
We were out of sin and the bottle fell out  
And the bottle fell out  
And the bottle fell out

So you can take off I ain't mad about it  
You can take off if you want  
You can take off I ain't mad about it (I ain't mad about it)  
You can take off I ain't mad about it  
You can take off if you want  
You can take off I ain't mad  
I'm just numb
