

Forgiveness

Remo Drive

How easy it would be to sign it all off as nothing
Sand pouring downward, my clocks all pushing you outward
Feign a picturesque smile, happiness seems to find me fleeting
Open your arms, let in the love you are receiving

Don't run away, your livelihood is receding
Bring back the power lost in countless darkest hours worth leaving behind
The air is worth breathing and nothing will relieve what's been done
It isn't worth reliving not a fraction of a minute
Forgiveness is the answer and life is the reason

What's done is done
What's done is done
What's done is done is done
What's done is done

Tear out pages in your heart
Meaningless memories were needless from the start

It's just another day
What's done is done
It's just the words we say
Pass off, move on
It's just another day
What's done is done
It's just the words we say
Pass off, move on

Tear out pages in your heart
Meaningless memories were needless from the start

It's just another day
What's done is done
It's just the words we say
Pass off, move on
It's just another day
What's done is done
It's just the words we say
Pass off, move on

What's done is done
What's done is done
What's done is done is done is done
Is done is done is done is done
