

Simple like you are, understand me  
Moderate difference from when I'm asleep  
The moon is waiting, and I am decaying  
Sidewalk beneath my feet  
You are a liar, put out the fire  
Resisting returns to me

I sense I'm falling, ah  
I'm with withdrawing, ah

Emptied out your glass, I needed a drink  
I'm trading my handouts for more time to sleep  
Three in a row now, I'm grinding my teeth  
Find it hard to believe  
Preach to the choir, the reason you're tired  
Burn down all you see

I sense I'm falling, ah  
I'm with withdrawing, ah

Simple like you are, understand me  
Moderate difference from when I'm asleep  
The moon is waiting, and I am decaying  
Sidewalk beneath my feet  
You are a liar, put out the fire  
Resisting returns to me

I sense I'm falling, ah  
I'm with withdrawing, ah
