

Someone hit me just to knock me out of this  
I think I'm running back back back back  
Let me see you in the light that shines of me  
I can see your true colors just relax

Mengele 'cause you're playin' with my heart again  
Tangled up and it's all because of you  
Let me feel like I'm closer to your heart again  
Now enough about me and more about you

I can see the future  
But the static won't clear  
Hold me I'm a loser  
But only when I'm here

I won't let go  
Not while you're here

Looking up at the sky that's when I knew I was wrong  
Yet I won't I won't come down from here  
Up on the roof I can feel my feelings alone  
I cut my losses and decide its cool to hang

Someone love me because I'm freaking out again  
I found my footing but I lost my balance  
Just when I feel it that's when I feel bad again  
I think I'm crazy but it's not that bad yet

I can see the future  
But the static won't clear  
Hold me I'm a loser  
But only when I'm here

I won't go home  
And please don't come here  
I missed the boat  
And now I can't hear

I won't let go  
Not while you're here
