Jane Remover

So this is where I go now
Talk to them, grasp at what nobody knows about
It's never scary when the light's out
Come join me in my hideout
I stay underground 'til the sun's out
If we watch this you might blow your brains out
This face is always ugly when it's nice out
I guess you weren't meant for my hideout

And when I woke up, I was so confused
Endured, who put me here?
"It wasn't me," said the one with filthy hands

Maybe being a bitch just wasn't a mistake
You get so pissed when someone's in your space
And all that you can say, "I never needed you guys anyway"
And you're all fired off for a stain, too late
It makes you feel like you're being chased
You got enough moxie to go trash the whole place

And if you wake up, I hope everything's okay
Sometimes I think that it's too much to say that I miss you

It started raining knives
Soon enough I found a place to hide
And I still wasn't satisfied
I went outside to go look for time
Ti-i-ime
Ti-i-ime
Ti-i-ime
