Jane Remover

I spin myself around and hear the things you'd say when you watch me leave  
Why have a seat at the table if I'm sticking around to watch you eat?  
I almost forgot what I looked like 'til I saw you playing with yourself online

And in your hand, I know you're dying to see me again  
Oh, do you see me in the video?

Oh, I worked for all of it  
Oh, I'm so tired of pretending  
I don't know a single thing about you  
And I'm not gonna act like I won a high  
When I come down, do you want me to be a victim?  
'Cause I saw us in the video

If I could write a pop song  
I'd get you to steer in my direction  
I'd get you to start chasing after me like it was already in your head  
I almost forgot what I looked like 'til that girl in the porno felt familiar  
And through the screen, I can see why he doesn't reciprocate  
'Cause I saw us in the video

Oh, I worked for all of it  
Oh, I'm so tired of pretending I don't know a single thing about you  
And I'm not gonna act like I want a high  
When I come down, do you want me to be a victim?  
'Cause I saw us in the video

These days I always lie to you when you watch me  
"Dance," you say, "It's fair," and I feel the same  
Boy, I'm so tired of trying to make you change your mind  
All I want you to do is chase me!  
All I want you to do is chase me!  
All I want you to do is chase me!  
All I want you to do is chase me!  
'Cause I saw us in the video

Oh, I worked for all of it  
Oh, I'm so tired of pretending I don't know a single thing about you  
And I'm not gonna act like I won a high  
When I come down, do you want me to be your victim?  
'Cause I saw us in the video

I was on the couch, I felt him on me  
He was sweeter than honey, wasted on the floor  
And in my mouth before I could spit out anything  
Waited 'til the night was over, I could watch him try to indulge me  
Maybe, for a change, somebody else could make me feel like I'm nothing

All I want you to do is chase me!  
All I want you to do is chase me!  
All I want you to do is chase me!  
All I want you to do is chase me!

You taunt me in your sleep, you lied to me, I'm not getting any prettier  
And I can't bring myself to tell them  
You woke up with an arm gone missing  
I almost forgot what I looked like 'til I felt you moving around inside of me

e

And through the screen, it kills me to know all the lengths I'd go  
Do you see me in the video?
