Save Me

Remy Zero

```
     A            E                        F         E
1. I feel my wings have broken in your hands
     A            E                      F E
   I feel the words unspoken inside
                 A
   and they pull you under
   F                                                E
   and I would give you anything you want, but know
              A
   you were all I wanted
                  E                    C
   and all my dreams are falling down
   G                         Dsus4
   crawling around and around

     G D
R:  somebody save me
   Am                      C
   let your warm hands break right thru and
   G D
    somebody save me
   Am                C
   i don't care how you do it
   G D
    just stay, stay
   Am
   oh come on
   C
   i've been waiting for you

2. I see the world has folded in your heart
   I feel the waves crash down inside
   and they pulled me under
   I would give you anything you want, but know
   you were all I wanted
   and all my dreams have fallen down
   crawling around around
R:
                 E                    C
   and all my dreams are on the ground
   G                 Dsus4
   crawling around around

R:
```
