

checked out

Rémy

You think that I'm checked out
You been feeling left out
And used to being let down again and again

You want to talk, I already know
Maybe we should just let this thing go
You and your friends driving up the coast
And they're trying to convince you
That I just can't make this thing work one time

You think that I'm checked out
You been feeling left out
And used to being let down again and again
You think that I'm checked out
It's getting in your head now
I think you want me dead now
And I'd understand

You want things to stay the same
But it's different since we graduated
You're all caught up in the yesterdays
Tomorrow's got me devastated
So I'll let go and we'll get back
On the road and out of time
You can wear my clothes, burn my line
That's how it goes, we'll both be fine
I just can't make this thing work one time

You think that I'm checked out
You been feeling left out
And used to being let down again and again
You think that I'm checked out
It's getting in your head now
I think you want me dead now
And I'd understand

I don't understand
I don't understand
I don't understand
I don't understand
I don't understand

That I'm checked out
And I don't understand
