

different things

Rémy

I don't know how to pace myself
We're running out of space right now
And I've been tryna make myself
Not let you know it's been like hell

We tried so hard
Packed in the car
What's yours?
What's ours?
Mmm-hmm, mm

I guess that we wanted different things
I thought you would end up with a ring
But while I was holdin' on, you were already gone
So I guess that we wanted different things
I guess that we wanted different things

(I guess that we wanted different things)

I think we should have made more time
Slept at your place then at mine
You wouldn't let me change your mind
The king of queens is always right

We tried so hard
Packed in the car
What's yours?
What's ours?
Mmm-hmm, mm

I guess that we wanted different things
I thought you would end up with a ring
But while I was holdin' on, you were already gone
So I guess that we wanted different things
I guess that we wanted different things

(I guess that we wanted different things)

(I guess that we wanted different things)
(We wanted, we wanted, we wanted different things)
(Ooh, you, you)
(Wanted, baby)
(Ooh, you, you)
(Wanted, baby)
(Ooh, you, you)
