

finding my people

Rémy

I'm new to the city eating me up
I'm new to wishing that something from space would beam me up
I'm new to wishing they'd hit me up
New to the city beating me up
I'm new to the city can't lie

I try baby, I do
I try to put myself out there
Gotta start somewhere, yeah
Somewhere, somewhere

I'm finding my people
And I'll go wherever I need
Yeah, I'm finding my people
Finding mine
And it's you...

I'm new to the city getting me down
I'm new to feeling like no one here wants me around
I'm new all this all this falling out
Lately I'm more lost than found
And I'm rotting away with folks who couldn't escape this town

I try baby, I do
I try to put myself out there
Gotta start somewhere, yeah
Somewhere, somewhere

I'm finding my people
And I'll go wherever I need
Yeah, I'm finding my people
Finding mine
And it's you...

I'm finding my people
Finding mine...
