

## i know why you stay out

Rémy

And this place is never gonna feel like home  
If you don't stay, and get a bit comfortable  
And this place is always gonna seem so cold  
If you don't get a little less vulnerable

I know you sleep late when you've been  
Drinking with your friends at night  
I know you sleep late when you're in your head  
I know you get wasted 'stead of  
Figuring where you fit in  
And oh, I can't wait 'til you're out of bed

I could shut this all down  
'Cause I know why you stay out  
You could turn this around  
Oh, I know why you stay out

At this rate, you never gonna make up your mind  
If you don't change and try a bit harder  
At this rate, you're only gonna run out of time  
If you don't live, a little bit larger

I know you sleep late when you've been  
Drinking with your friends at night  
I know you sleep late when you're in your head  
I know you get wasted 'stead of  
Figuring where you fit in  
And oh, I can't wait till you're out of bed

I could shut this all down  
'Cause I know why you stay out  
You could turn this around  
Oh, I know why you stay out

Maybe you just gotta  
Maybe you just gotta  
Get your act together  
Get your act  
Maybe you just gotta  
Maybe you just gotta  
Get your act together now  
Get your act

I could shut this all down  
'Cause I know why you stay out  
You could turn this around  
Oh, I know why you stay out
