

Pixie

RÉN

My little Pixie
She'll be picking, pocket stealing hearts on the high street, alright?
My little Pixie
I can get quite drunk on the love
It makes me tipsy all night
My little Pixie
I can see the mischief in her eyes
My little Pixie
Oh she lit my life like a bonfire
It burns so bright

Wooh
There's a difference between lust and love
And I just think I got it
Wooh
And everywhere that I go
I take my Pixie with me in my pocket
Wooh
I said the way that you movin' is magical
Please don't stop it
Wooh
Now everywhere that I go
I take my Pixie with me in my pocket

You circle my [?] like a smoke ring
Intoxicated lungs with the fumes of love
I'm tokin'
I'm fallin' faster than the raindrops hit the ground
I'm soakin'
T-shirt full of tears and my heart is hoping
If we fall apart then the door must still be open

And I would still get to hold you
Even when we're old, girl
Give you my soul to keep
Just like I keep you with me
Forever in my pocket
My little Pixie

Wooh
There's a difference between lust and love
And I just think I got it
Wooh
And everywhere that I go
I take my Pixie with me in my pocket
Wooh
I said the way that you movin' is magical
Please don't stop it
Wooh
Now everywhere that I go
I take my Pixie with me in my pocket
