

What Went Wrong

RÉN

It was a Friday night
Not sure what I've taken
But I'm high tonight
There was a subtle shaking
In my left and right
Got confused mistaken stuck in a matrix then my best friend says to me

Sammy boy
Why you faded on the sofa
Let's blow this joint
Bring yourself up out the coma
And toke this joint
And we'll jump into your car
Put the pedal to the floor
Bruv don't disappoint

Bro I'm not in the right mind frame
I've had several shots and I'm out my brain
And it's really not the right time to be drivin
The smoke in my eyelids and I just wanna chill here

Don't be a pussy
Don't beat around the bushy
I'm in the mood to boogie cus I'm on the Buzz
You're Woody
Man get up on the sofa
Stand up like a soldier
Keep that composure
Tonight could be golden

Okay man I'm feeling kinda wake but
You was the plan
Pass me the keys and I'll grab the can
Keep your eyes on the rear and look out for the cops while I focus on the steering wheel

Fuck the police comin' straight out the underground
We'll run around town with this whipped like
A thunder cloud
Proud yes my brother
You're Michael Schumaker
Stop driving like a bitch
And start burning some rubber

Alright fuck it, you wanna see my drive? (Yeah)
Clock the dial
Watch how it climbs
Pass me the beer
Pass me that spliff
I'm about to get down on some Hamilton shit

There's the boy that I know
A boy that I love
Fuck a beer here's a bottle of tequila, my brother
I knew when push came to shove
She wouldn't let me down
Now it's GTA V up in Brighton town

Not gonna pump the break
Till the gas explodes
Pull a handbrake turn
While I smoke my o's
Bruv you are right
Man you always know
Wait fuck! what the fuck is that in the road?

Where am I?
What is this?
Blood on my brow
Trembling wrist
Where's my friend?
Where's he gone?
I think I crashed
What went wrong?
