

I know I been far away
I'm tryna find your face tonight
And it's been a couple days
But we can ride the wave tonight
Tell me doesn't that sound surreal?
Baby come and get down with me

Mmm I know you've been lookin' for serenity
Just some serenity (serenity)
But you've been lookin' in places it'll never be
(No it'll never be)
I swear you're losin' focus
Yes I noticed
All these other dudes is bogus
I've been hopin' you'd take a moment
And smell the roses

I know I been far away
I'm tryna find your face tonight
And it's been a couple days
But we can ride the wave tonight
Tell me doesn't that sound surreal?
Baby come and get down with me

I know I been far away
I'm tryna find your face tonight
And it's been a couple days
But we can ride the wave tonight
Tell me doesn't that sound surreal?
Baby come and get down with me
