

## God is near

### Rend Collective Experiment

No one really knows  
What it is to be alone  
Since You've never left our side

Omnipresence means  
That You're never far away  
You're always within reach  
Always within reach

Hallelujah God is near  
Hallelujah Christ is close  
Hallelujah God is near  
Hallelujah

We've been oceans apart  
But You'd part oceans to be with me  
Nothing can keep You away  
Nothing can keep You away

You're living in me now  
You built Your home inside my soul  
And You're never moving out  
No You're never moving out

You're closer than a whisper  
Close enough to hear my heart beat  
You're closer than a kiss  
Close enough to raise my heart beat
