

# Burn

Rend Collective

Pour out Your spirit Lord  
Like kerosene  
And strike a match inside of me  
I want to be an incandescent flame  
The kind that makes that darkness flee

Turn it up I wanna feel the heat  
Of revival fire consuming me  
Let these dry bones be the kindling  
A single spark is all I need

I want to burn, burn, burn  
I want to burn, burn, burn  
I want to burn, burn, burn for You  
I want to burn, burn, burn  
I want to burn, burn, burn  
I want to burn, burn, burn for You

Flare up the furnace burning in my blood  
With desire for Your Kingdom come  
Soak me in Your word like gasoline  
Then light the fuse and let the shadows run

I want to burn, burn, burn  
I want to burn, burn, burn  
I want to burn, burn, burn for You  
I want to burn, burn, burn  
I want to burn, burn, burn  
I want to burn, burn, burn for You

Stoke up the embers of my soul  
Don't leave me out here in the cold  
You are my oxygen my hope  
Don't let the fire die  
Let these ashes roar to life

I want to burn, burn, burn  
I want to burn, burn, burn  
I want to burn, burn, burn for You  
I want to burn, burn, burn  
I want to burn, burn, burn  
I want to burn, burn, burn

Like gunpowder and gasoline  
Like kindling and kerosene  
I'll burn, burn, burn for You  
I want to feel the heat like a fever dream  
A single spark is all I need  
I'll burn burn, burn for You
