There's no audition for true love
No matter what, you don't have to earn it
If you've ever felt like an outcast
There's good news if you've never heard it

God so loved the world
God so loved the world
He never left you out of it

Whosoever needs a shelter
Needs a saviour, come in closer
All who wander, every outsider
You are safe here, whosoever

No more of life on the sidelines
There's an open door and you are invited
Come on in and join the song
And raise a glass 'cause you belong
No matter what, you're welcome and wanted

God so loved the world
God so loved the world
He never left you out of it

Whosoever needs a shelter
Needs a saviour, come in closer
All who wander, every outsider
You are safe here, whosoever

Love looks like this
Like a long walk home
Like a Father who runs out to find you
Love looks like this
Like a man on a cross
His arms stretching out to remind you

Whosoever needs a shelter
Needs a saviour, come in closer
All who wander, every outsider
You are safe here, whosoever

Whosoever needs a shelter
Needs a saviour, come in closer
All who wander, every outsider
You are safe here, whosoever
