

By My Side

Rendy Pandugo

Can you imagine
If the sun didn't shine when you woke?
Can you imagine
If I didn't get the letter you wrote?

I'll be lost with nowhere to go
I'll be blind and feeling so low, so low

Can you imagine
You spend the nights fighting the cold
And I can't imagine
Go through the dark with no one to hold

Turn the light on when we're home
Stay with me when the night comes

Baby you are the light
You are my sunshine
After the dark
And my baby
You are my heart
You are my guide
All through the night
Stay by my side

Baby you are the light
You are my sunshine
After the dark
And my baby
You are my heart
You are my guide
Stay by my side

Oh baby you are the light
You are my sunshine
After the dark
And my baby
(And my baby)
You are my heart
You are my guide
All through the night
Stay by my side

You are my guide
All through the night
Stay by my side
