

FAR

Rendy Pandugo

Tell me how tell me now
Do you see through my eyes
Every time we get by
Oh we want this around

It's been so hard to see
Reasons why we can't be
Even harder to breathe
How we want it to be

Driving in the highway coming home
Feeling like I'm standing on my own
Expectations got too high
No, we never gonna make it
Far
Far
Far
No, we never gonna make it
Far

It's been so hard to see
Reasons why we can't be
Even harder to breathe
How we want it to be

Driving in the highway coming home
Feeling like I'm standing on my own
Expectations got too high
No, we never gonna make it
Far
Far
Far
No, we never gonna make it
Far
Far
Far
No, we never gonna make it
Far

Where do you take my heart
Can you tell me now?
When the dawn is coming out
Everything's gonna be alright

All the love, all the joy, all the pain
Let it shine so bright
Can we just be here baby?
Come and just hold me tight

Driving in the highway coming home
Feeling like I'm standing on my own
Expectations got too high
No, we never gonna make it
Far
Far
Far
No, we never gonna make it

Far
Far
Far
No, we never gonna make it
Far
