

Everything We Do

René & Angela

Everything we do comes so naturally
And everything we say, comes like one before two
Everything we do comes so naturally
And everything we say, comes like one before two

I finally found my girl
Who will come in my world
She lends me a helping hand
On her love I will always stand
She's like a warm breeze
That blow and fills the trees
As a Sun shines over me
Over me, that's why

Everything we do comes so naturally
And everything we say, comes like one before two
Everything we do comes so naturally
And everything we say, comes like one before two

Our love will always grow
That's one thing we know
Our lives and our dreams
Are like one, it seems
We've planted the seeds
The seeds of our needs
And they will grow, they will grow, they will grow...

Everything we do comes so naturally
And everything we say, comes like one before two
Everything we do comes so naturally
And everything we say, comes like one before two

Everything we do comes so naturally
And everything we say, comes like one before two
Everything we do comes so naturally
And everything we say, comes like one before two

Everything we say and do, comes so naturally
You and me, me and you, comes so naturally
Everything we say and do, comes so naturally
You and me, me and you, comes so naturally

The things we say and do, come so naturally
Talking about you and me, me and you, comes so naturally
Everything we say and do, comes so naturally
You and me, me and you, comes so naturally
The things we say and do, come so naturally
You and me, me and you, comes so naturally
