

## Dilemma

Reneé Dominique

You hear me out  
Yet you silence me  
You keep me in  
Then push me out  
You got me asking  
For more of you  
Leavin' me floating  
'Cause you don't want me falling  
I spend my days  
Drunk on the thought of your ways  
I plead you to set me free  
But please do stay with me  
I wanna hate you  
But how can I hate you  
It's what you do to me  
That's what I hate  
The door is wide open  
So you're free to leave  
But as you walk out so carelessly  
I ask you to stay with me

Oh, just please get out and leave me here I am begging  
'Cause not for long I'll be crying and asking  
You're dangerous and that's what I find wanting  
Yet I know  
This isn't what you want  
Oh, just please get out and leave me here I am begging  
You got me messed up in my mind over this feeling  
You left marks on me and then you go escape it  
Please go  
But please stay  
How can I hate you  
It's what you do to me  
That's what I hate  
You leave me on the floor and naked  
But without you I can't stand  
It's what you do to me  
That leaves me afraid  
It's what you do to me (yeah)  
Yet I still ask you to stay
